SARDIS B.Y.O.D. PURCHASE PROGRAM

*Bring Your Own Device

Sardis Secondary Lenovo N23 Packages

At Sardis Secondary, our mission is to enable all learners to develop individually, within a positive and safe environment, attitudes, skills, and knowledge necessary to become responsible, caring and contributing citizens prepared to meet life's challenges.

As leaders in the use of technology, we encourage creative and innovative learning. We know that today's students are already technology leaders. They want to take the technology they use in their daily lives and make it a normal part of their classroom experience. Research tells us that if we reflect this in their learning experiences, we will increase engagement which leads to improved student success. The BYOD Program is simply a way to allow students greater access to tools that will assist them in their learning while increasing their technology skills.
